Gas Governance

Dear Mike,

APX Gas – Response to Modification 0062

APX supports the implementation of this modification proposal, to assist National Grid NTS in balancing the NTS in the most effective manner.

APX is working with National Grid NTS towards the introduction and operation of a Gas Balancing Alert (GBA), via the OCM's Locational Market. It is expected that this will be available by 5th December 2005

Yours sincerely,

Martin Thomas
Managing Director
