18 May 2006

Dear Julian,

Modification Proposal 0076 - "Right of Set Off under Uniform Network Code"

Total Gas & Power Limited (TGP) supports modification 0076.

- In our response to modification 0027 we indicated our preference for the use of Set Off to be a voluntary arrangement between the Shipper and Transporters as for some Shippers the costs in modifying their systems to accommodate the set-off arrangement would outweigh any benefit. This modification has taken that concern into consideration and hence we can give our unqualified support.
- The ability for Transporters to impose set-off on Shippers who have debts outstanding seems an appropriate safeguard to protect the wider industry from incurring unrecoverable debts.
- As our concerns have been addressed we therefore believe that the modification promotes the Transporters' ability to operate the network in an efficient and economic manner and so fulfills the relevant objectives of licence condition A11

Should you wish to discuss our response further, please feel free to contact me.

Yours sincerely,

(This message is sent electronically and is therefore not signed)
