**Response to UNC Modification Proposal 081 AQ Review  
Process – publication of information**

Dear Tim

E.ON UK supports this proposal. We agree with the proposer that the proposal will better facilitate the following relevant objectives, as specified in SSC A11 of the Gas Transporters licence:

- (a) Efficient and economic operation of the pipe-line system
- (d) (i) and (ii)) Securing effective competition between relevant suppliers and shippers

The above will be achieved, as stated by the proposer, through more accurate AOs and the enhanced scrutiny and governance of the AO process, also resulting in greater transparency and reliability of the process.

Yours sincerely
