Our Ref: NEC Mod 0090 response

Dear Julian

Representation in response to Modification Proposal 0090: "Revised DN Interruption Arrangements"

Thank you for the opportunity to respond to this Draft Modification Report (DMR).

As the NEC I'm concerned that the safety implication of Mod 0090 and its impact on the NEC and Transporter safety cases have not been properly considered. I am holding a meeting with the HSE and Transporters on the 4th December to discuss this issue.

I will not be making a formal response to the DMR at this time as I will be dealing directly with the HSE regarding any NEC safety case changes and the Transporters with respect to their abilities to support NEC in managing emergency situations.

If you require any further information please contact Jacky Carroll on 01926 653222 in the first instance.

Yours sincerely

Peter Boreham
NEC
