ALL SHIPPERS

Dear Shipper

**Modification proposals 123: Registration of Multiple Users at Large Supply Points and CSEPs**

Ofgas has accepted modification proposal 0123 as urgent.

This proposal allows multiple shippers to supply a single supply point. Allocations between these shippers would be carried out by TransCo based on a methodology provided by the customer at that supply point.

The proposal would therefore increase competition in supply to large customers and would allow customers to have access to gas from other shippers during periods of commercial interruption.

Close out for representations to TransCo on this modification is 21 February.

Yours faithfully
