**Re: Modification Proposal 0173; Obligations to process data received from IGTs inline with requirements within Annex A of the CSEP NExA**

Dear Julian,

Thank you for the opportunity to comment on this proposal. RWE npower supports the implementation of the proposed modification.

We agree with the proposer that the legal text applied as a result of the implementation of Modification Proposal 083 did not reflect the aim or intention of the proposal.

In our original response to Modification Proposal 0083, we supported the initiative to formalise processes between Large Transporters and iGTs and feel that the proposed legal text in this modification proposal applies the intention of Modification Proposal 0083 which was to insert into the UNC, requirements for processing iGT data in a timely manner.

If you wish to discuss any points raised in this response further, please do not hesitate to contact me.

Regards,

Heidi Martin
