Response to UNC Modification Proposal 0201 : Small invoice payment referral

Dear Julian

The proposal allows for invoices of very small value to be batched and paid together. It is limited to invoices less than £25 and therefore will not affect the bulk which will continue to attract penalties for late payment.

It also allows the user to continue to pay as per the current rules.

Therefore it provides a pragmatic and cost effective solution with the flexibility that it can be adopted by users to fit with their existing and future business practices.

Consequently E.ON UK supports this proposal.

Yours sincerely

Brian Durber (by email)
