Dear John

Modification Proposal: 0236 Amendment to px (TGPP) Limited network entry agreement.

Thank you for providing Scotia Gas Networks with the opportunity to respond to Modification Proposal 0236. SGN provide the following comments.

SGN consider it appropriate for the px Teesside Gas Processing Plant (TPGG) Limited Network Agreement at Teesside to be brought in line with the GSMR lower Wobbe and CV limits. SGN believe implementation of this proposal could enhance security of supply as it has the potential to increase the volume of UKCS into the National Transmission System (NTS). Furthermore implementation of this proposal would allow economic and efficient delivery of new gas supplies at Teesside and consider this to facilitate SSC A11.1 (d) the securing of effective competition between relevant shippers and suppliers.

We hope you find these comments helpful.

Yours sincerely

Bali Dohel
