Dear John,

The following is the Scottish Power response to

UNC Modification Proposals 0239 – “Reinstatement of NTS Interruption”

We support Modification 0239

We believe that this modification is consequential on other arrangements which have been introduced in the gas regime and its implementation will further the relevant objectives as set out in Standard Special Condition A11 of the Gas Transporters Licence.

Should you have any queries on the views expressed, please contact me on the telephone number as shown.

Yours Sincerely,

Commercial & Regulation Manager (Gas)
