Dear John,

The following is the Scottish Power response to

**MODIFICATION PROPOSAL 0241 - DELAYING THE IMPLEMENTATION OF
THE AD-HOC APPLICATION PRINCIPLE OF THE ENDURING OFFTAKE
ARRANGEMENTS**

We support Modification 0241

We believe that this simple modification to the legal text of the UNC will avoid ad-hoc applications for exit capacity before the development of the ExCR, and that its implementation will further the relevant objectives as set out in Standard Special Condition A11 of the Gas Transporters Licence.

Should you have any queries on the views expressed, please contact me on the telephone number as shown.

Yours Sincerely,

Commercial & Regulation Manager (Gas)
