Dear John

**Modification Proposal 0243: Amendments to the process for initialisation of Enduring Exit (Flat) Capacity at Moffat NTS Exit Point**

EDF Trading welcomes the opportunity to respond to this proposal.

EDF Trading is broadly supportive of proposal 0243. Linking traded volumes and upstream and downstream capacity booking levels would provide a more appropriate mechanism of allocating initial enduring capacity rights. However, it is crucial that any distinct arrangements at Moffat NTS Exit point do not introduce any unnecessary complexity.

Yours sincerely

**Cemil Altin**  
**Head of Regulation: UK, Financial and Nordic**
