

21 June 2000

BG Transco, Shippers and Other Interested Parties

Our Ref: Net/cod/mod/408/409/410

Dear Colleague,

Decision on urgency for the following Modification proposals:

0408: *Review of Entry Overrun Charges*

0409: *Review to Monthly Capacity Auction Parameters*

0410: *Auctions of Monthly Interruptible System Entry Capacity*

Ofgem have considered the request from Transco for Modification Proposals 408, 409 and 410 to be made urgent. Ofgem agrees that these modifications merit urgent status.

Ofgem has decided that urgent procedures are necessary for modification proposals 408 and 409 as they impact upon the forthcoming Monthly System Entry Capacity (MSEC) auctions for the period October 2000 to March 2001.

Ofgem also consider that urgent procedures are appropriate for modification proposal 410 as it impacts upon the forthcoming Monthly Interruptible System Entry Capacity (MISEC) auctions. Ofgem believes that it is desirable for Users to understand all aspects of the entry capacity regime prior to bidding to obtain any category of entry capacity.

The three modification proposals are to follow the same timetable, which is as follows:

Issued to Ofgem for decision on urgency	19 June 2000
Proposal agreed as urgent	21 June 2000
Proposal issued for consultation	21 June 2000
Close out for representations	11 July 2000
Final report to Ofgem	18 July 2000
Ofgem decision expected	21 July 2000

If you have any queries in relation to the issues raised in this letter, please feel free to contact me on the above number.

Yours sincerely,

Rebecca Purves
Head of System Operations
