[dependant on decision date]

Dear Colleague

General Information only on the Bacton Capacity Reallocation Invitation Process

Please note if you do not hold any Registered NTS Entry Capacity at the Bacton ASEP from 1 November 2015 onwards there is no action required.

Following implementation of UNC Modification 0501V, National Grid Gas plc ("National Grid") will invite all Users who hold Registered NTS Entry Capacity and also all Users that are Transferor Users holding existing NTS Capacity Transfers at the Bacton ASEP for one or more of the calendar months November 2015 to September 2016 and for one or more of the quarters beginning 1 October 2016 and ending 30 September 2031, to take part in the Bacton Capacity Initial Reallocation Invitation Process to reallocate their existing Registered NTS Entry Capacity and existing NTS Capacity Transfers¹ for the identified Months/Quarters to the Bacton UKCS or Bacton IP ASEPs.

Users who hold Registered NTS Entry Capacity at the Bacton ASEP from 1 November 2015 onwards and Transferor Bacton Users who hold NTS Entry Capacity Transfers from 1 November 2015 onwards will be notified of their existing capacity and existing capacity transfers held at Bacton and invited to reallocate this capacity to the Bacton UKCS or Bacton IP ASEPs.

Bacton Capacity Initial Reallocation Invitation

If the Initial Capacity Reallocation Process fully reallocates all existing Registered NTS Entry Capacity for all Months/Quarters to the two new ASEPs, National Grid will undertake the reallocation of Registered NTS Entry Capacity and recreate NTS Capacity Transfers at the Bacton UKCS or Bacton IP ASEPs on each Users' behalf, Users will not be required to undertake any actions on National Grid's systems and no further invitations will be issued.

Bacton Capacity Final Reallocation Invitation

If, however, the Initial Capacity Reallocation Process does not fully reallocate all existing Registered NTS Entry Capacity for all Months/Quarters to the two new ASEPs, National Grid will subsequently issue a Bacton Capacity Final Reallocation Invitation to all Users holding Registered NTS Entry Capacity at the Bacton ASEP for the Months/Quarters oversubscribed only, to re-indicate where they would wish their Registered NTS Entry Capacity rights and their NTS Capacity Transfers¹ to be held in future; either at the Bacton UKCS ASEP or the Bacton IP ASEP. Again National Grid will undertake the reallocation of Registered NTS Entry Capacity and NTS Capacity Transfers to the two new ASEPs on the Users' behalf, and the User will not be required to undertake any actions on National Grid's systems.

National Grid's IT systems will be updated by 30 September 2015.

¹ Only where User is a Transferor User

Please see the process timeline below.

Process Steps	Initial Invite	Users Response by ²	NG notify results by	Final Invite by	Users Response by ²	NG notify Results by	Systems Updated by
Date	[xxxx]	[xxxx]	[xxxx]	[xxxx]	[xxxx]	[xxxx]	[xxxx]

Please note that this message is being sent by e-mail via the Joint Office of Gas Transporters and web-fax (business hours operational list). An Automated Notification Service (ANS) message will also be issued informing Users that the invitation has been issued.

For avoidance of doubt, expressions used within this letter should be interpreted as having the same meaning as per the UNC Document.

If you have any queries regarding this application process please contact a member of the capacity auctions team on +44 (0)1926 65 4057. Alternatively you can e-mail the capacity team regarding any capacity issues at capacityauctions@nationalgrid.com

Yours Sincerely,

B Charles

[dependant on process start date]

Dear [User A]

Bacton Capacity Initial Reallocation Invitation Process
Invitation to participate in the Initial Capacity Reallocation of existing Registered NTS Entry
Capacity at Bacton from 1 November 2015 onwards

Following on from the information note sent [xxxxxx], the implementation of UNC Modification 0501V, National Grid Gas plc ("National Grid") invites you to take part in the Bacton Capacity Initial Reallocation Invitation Process to reallocate your existing Registered NTS Entry Capacity and existing NTS Capacity Transfers¹ at the Bacton ASEP to the Bacton UKCS or Bacton IP ASEPs for the one or more of the calendar months from November 2015 to September 2016 and for one or more of the quarters beginning 1 October 2016 and ending 30 September 2031.

Your existing Registered NTS Entry Capacity rights at the Bacton ASEP and the existing weighted average price for that capacity for the relevant periods are detailed in the following table:

BA Code:	AAA	Shipper Name:	User A
Sub-transaction period start date	Sub-transaction period end date	Existing Registered NTS Entry Capacity at Bacton ASEP (kWh/d)	Existing weighted average price (p/kWh/d)
1 Nov 2015	30 Nov 2015		
1 Dec 2015	31 Dec 2015		
1 Jan 2016	31 Jan 2016		
1 Apr 2031	30 Jun 2031		
1 Jul 2031	30 Sep 2031		

¹ Only where the Bacton User is the Transferor User

Your existing NTS Capacity Transfers¹ are detailed in the following table:

BA Code	AAA	Shipper Name	User A
Sub transaction period start date	Sub-transaction period end date	Existing NTS Entry Capacity Transfer at Bacton ASEP	Transferee
1 Nov 2015	30 Nov 2015		
1 Dec 2015	31 Dec 2015		
1 Jan 2016	31 Jan 2016		
↓	↓		
1 Apr 2031	30 Jun 2031		
1 July 2031	30 Sep 2031		

Please could you indicate at which ASEP (Bacton UKCS or Bacton IP) you wish these existing Registered NTS Entry Capacity rights and existing NTS Entry Capacity Transfers¹ to be held in future for the relevant periods indicated using the attached proforma included within Appendix 1.

Please note

- the total quantity of NTS Entry Capacity that you request at the two new ASEPs (Bacton UKCS and Bacton IP) should be equal to the existing amount that you hold at the Bacton ASEP for each relevant period.
- the total quantity of NTS Entry Capacity Transfers that you request at the two new ASEPs (Bacton UKCS and Bacton IP) should not be greater than the lesser of either your existing quantity of NTS Entry Capacity Transfers or your Registered NTS Entry Capacity for each relevant period
- the Transferor user is to provide the Transferee and quantity by relevant ASEP by period (Month or Quarter)

Users can submit their completed proforma between 08.00hrs and 17.00hrs on each of the following 10 Business Days (xx xx xx xx xx xx xx xx xx xx) via the following facsimile number:

Direct fax: +44 (0)1926 654059

Please note the completed proforma should be returned to National Grid no later than 17.00 [xx]

No later than 5 Business Days following the final date for the return of the Appendix 1 proforma, National Grid will undertake the Initial Capacity Reallocation process which consists of the following steps:

- a. National Grid will calculate the aggregate level of NTS Entry Capacity rights requested by Users for each Month/Quarter at the Bacton UKCS ASEP and the Bacton IP ASEP
- b. Provided that the aggregate level of NTS Entry Capacity rights requested is below the relevant Obligated level of NTS Entry Capacity at each of the Bacton UKCS ASEP and the Bacton IP ASEP for a given Month/Quarter, National Grid will allocate that NTS Entry Capacity and NTS Capacity Transfers in accordance with the User's individual requests
- c. If in any Month/Quarter and at either ASEP, the aggregate level of NTS Entry Capacity rights is above the relevant Obligated level of NTS Entry Capacity, National Grid will not allocate any NTS Entry Capacity rights to Users for that Month or Quarter (but will allocate for the other Months or Quarters that are below the obligated level)
- d. National Grid will fax (via the Joint Office) the aggregate results of the Initial Capacity Reallocation to all Users, and will fax directly the individual reallocations to the individual User for each of the two new ASEPs. This note will contain:
 - i. Relevant Months or Quarters
 - ii. ASEP
 - iii. Quantity in kWh/day allocated
- e. National Grid will also inform relevant Users of any Months or Quarters which are not reallocated as the aggregate level of NTS Entry Capacity rights requested was above the relevant Obligated

level of NTS Entry Capacity at either new ASEP and therefore that a second invitation (the Bacton Capacity Final Reallocation Invitation) will be issued.

Initial Capacity Reallocation

If the Initial Capacity Reallocation fully reallocates all existing Registered NTS Entry Capacity for all Months/Quarters to the two new ASEPs, National Grid will undertake the reallocation of Registered NTS Entry Capacity and NTS Capacity Transfers at the Bacton ASEP on your behalf as per your request and the process will be completed. This will not require any User to undertake any actions on National Grid's systems or for National Grid to issue any further invitation to Users.

Final Capacity Reallocation

If, however, the Initial Capacity Reallocation does not fully reallocate all existing NTS Entry Capacity for all Months/Quarters to the two new ASEPs, National Grid will issue [on dependant on when process started], for Months/Quarters that are oversubscribed only, a Bacton Capacity Final Reallocation Invitation to all Users who at that time hold Registered NTS Entry Capacity at the Bacton ASEP for the particular Months/Quarters affected to re-indicate where they would wish their Registered NTS Entry Capacity rights and NTS Entry Capacity Transfers¹ to be held in future; either at the Bacton UKCS ASEP or the Bacton IP ASEP.

National Grid will endeavour to contact you if you do not respond or respond incorrectly² however if a correct response is not received by 17:00pm on xxx, National Grid will assume that you wish to reallocate your Registered NTS Entry Capacity for each of the relevant months or quarters for which you hold Registered NTS Entry Capacity between the Bacton UKCS ASEP and the Bacton IP ASEP in the same proportion as given by the new Licence Obligated levels at the two ASEPs and the Transfer quantity in the same proportion as the User's split of their primary holdings.

National Grid's systems will be updated by 30 September 2015

For avoidance of doubt, expressions used within this Invitation Letter should be interpreted as having the same meaning as per the UNC Document.

If you have any queries regarding this application process please contact a member of the capacity auctions team or myself on +44 (0)1926 65 4057. Alternatively you can e-mail the capacity team regarding any capacity issues at capacityauctions@nationalgrid.com

Yours Sincerely,

B Charles
Market Operation, National Grid

² A User cannot request reallocation of a quantity less than or greater than their Registered NTS Entry Capacity for the month/Quarter in question or their Registered NTS Entry Capacity at the Bacton ASEP. A Transferor User cannot request reallocation of a quantity of NTS Entry Capacity Transfers greater than the lesser of, either their existing quantity of NTS Entry Capacity Transfers for the Month/Quarter in question or their Registered NTS Entry Capacity at the Bacton ASEP.

www.nationalgrid.com

[dependant on start date]

Dear [User A]

Results of Reallocation of existing Registered NTS Entry Capacity at Bacton from 1 November 2015 onwards (following initial reallocation)

Please find the results of the Initial Capacity Reallocation showing your individual reallocations of NTS Entry Capacity and NTS Entry Capacity Transfers¹ for each of the two new ASEPs within Appendix 1, which displays;

- i. Relevant Months or Quarters
- ii. ASEP
- iii. Quantity in kWh/day allocated

This does not require any User to undertake any actions on National Grid's systems

(if all allocated use next paragraph)

Please note for all Months/Quarters the aggregated requests were below the Obligated level of either the Bacton UKCS ASEP or the Bacton IP ASEP, therefore all of the existing Registered NTS Entry Capacity and NTS Capacity Transfers¹ have been fully reallocated to the two new ASEPs. This information is found in the attached Appendix 1. No further invitations will be issued as the reallocation process is now completed. IT systems will be updated by National Grid by 30th September 2015.

(if some periods oversubscribed use next 2 paragraphs)

For all Months/Quarters where the aggregated requests are below the Obligated level of either the Bacton UKCS ASEP or the Bacton IP ASEP, the existing Registered NTS Entry Capacity and NTS Capacity Transfers¹ for these Months/Quarters have been reallocated to the new ASEPs as per User requests. This information is found in the attached Appendix 1.

For all Months/Quarters where the aggregate level of NTS Entry Capacity rights requested are above the relevant Obligated level of NTS Entry Capacity at either the Bacton UKCS ASEP or the Bacton IP ASEP no reallocations have been made. These specific Months/Quarters are marked as "oversubscribed" within the Appendix 1 below.

National Grid will now issue [dependant on process trigger date between 19th and 25th August] a Bacton Capacity Final Reallocation Invitation to all Users who hold Registered NTS Entry Capacity at the Bacton ASEP, for the Months/Quarters that are marked as "oversubscribed". Affected Users can re-indicate where they wish their Registered NTS Entry Capacity rights and NTS Capacity Transfers¹ to be held in future; either at the Bacton UKCS ASEP or the Bacton IP ASEP. The Final Capacity Reallocation will take place by [dependant on process trigger date] such that the whole process is anticipated to be completed by [30 September 2015].

¹ Where Transferor User only

For avoidance of doubt, expressions used within this letter should be interpreted as having the same meaning as per the UNC Document.

If you have any queries please contact a member of the capacity auctions team or myself on +44 (0)1926 65 4057. Alternatively you can e-mail the capacity team regarding any capacity issues at capacityauctions@nationalgrid.com

Yours Sincerely,

[B Charles]
Market Operation, National Grid

[dependant on process trigger]

Dear Colleague

Aggregate Results of Bacton Capacity Reallocation of existing Registered NTS Entry Capacity at Bacton from 1 November 2015 onwards (following Initial Reallocation Process)

Please find the results of the Initial Capacity Reallocation showing the **aggregated** reallocation of NTS Entry Capacity for each of the two new ASEPs displayed as:

- i. Relevant Months or Quarters
- ii. ASEP
- iii. Quantity in kWh/day allocated

This does not require any User to undertake any actions on National Grid's systems

(if all allocated use next paragraph)

Please note for all Months/Quarters the **aggregated** requests were below the Obligated level of either the Bacton UKCS ASEP or the Bacton IP ASEP, therefore all of the existing Registered NTS Entry Capacity has been fully reallocated to the two new ASEPs. Please see attached Appendix 1. The reallocation process is now completed and National Grid will update the IT systems by 30th September 2015

(if oversubscribed use next 2 paragraphs)

For all Months/Quarters where the **aggregated** requests were below the Obligated level of either the Bacton UKCS ASEP or the Bacton IP ASEP, the existing Registered NTS Entry Capacity for these Months/Quarters has been reallocated to the new ASEPs as per User requests. This information is found in Appendix 1 below.

For all Months/Quarters where the aggregate level of NTS Entry Capacity rights requested are above the relevant Obligated level of NTS Entry Capacity at either the Bacton UKCS ASEP or the Bacton IP ASEP no reallocations have been made. These specific Months/Quarters are marked as "oversubscribed" within the Appendix 1 below.

National Grid will now issue on [dependant on process trigger date between 19th – 25th August 2015] a Bacton Capacity Final Reallocation Invitation to all Users who hold Registered NTS Entry Capacity at the Bacton ASEP for the Months/Quarters that are oversubscribed. Affected Users can re-indicate where they wish their Registered NTS Entry Capacity rights and NTS Capacity Transfers¹ to be held in future; either at the Bacton UKCS ASEP or the Bacton IP ASEP. The Final Capacity Reallocation will take place by [dependent upon process trigger date] such that the whole process is anticipated to be completed by [30th September 2015].

Please note that this message is being sent by e-mail via the Joint Office of Gas Transporters and web-fax (business hours operational list).

For avoidance of doubt, expressions used within this letter should be interpreted as having the same meaning as per the UNC Document.

[Dependant on process trigger date]

Dear [User A]

Bacton Capacity Final Reallocation Invitation Process

Invitation to participate in the Final Capacity Reallocation of existing Registered NTS Entry Capacity at Bacton from 1 November 2015 onwards

As the Initial Capacity Reallocation Process could not fully reallocate all existing Registered NTS Entry Capacity, at the Bacton ASEP to the Bacton UKCS or Bacton IP ASEPs, for all periods from 1 November 2015 onwards, we are inviting you to take part in the Bacton Capacity Final Reallocation Invitation Process.

No reallocations, for the specific periods shown in the table below, could be made as the aggregated requests received via the Initial Invitation were above the relevant Obligated level for one of the two ASEPs. We are requesting all Users who hold Registered NTS Entry Capacity and NTS Capacity Transfers¹ at the Bacton ASEP for the relevant periods to re-indicate where they would wish this capacity to be reallocated.

Your existing Registered NTS Entry Capacity rights at the Bacton ASEP and the existing weighted average price for that capacity for the relevant periods are detailed in the following table:

BA Code:	AAA	Shipper Name:	User A
Sub-transaction period start date	Sub-transaction period end date	Existing Registered NTS Entry Capacity at Bacton ASEP (kWh/d)	Existing weighted average price (p/kWh/d)
1 Nov 2015	30 Nov 2015		
1 Dec 2015	31 Dec 2015		
1 Jan 2016	31 Jan 2016		
1 Apr 2031	30 Jun 2031		

¹ Where User is Transferor only

BA Code:	AAA	Shipper Name:	User A
Sub-transaction period start date	Sub-transaction period end date	Existing Registered NTS Entry Capacity at Bacton ASEP (kWh/d)	Existing weighted average price (p/kWh/d)
1 Jul 2031	30 Sep 2031		

Your existing NTS Capacity Transfers¹ are detailed in the following table:

BA Code	AAA	Shipper Name
Sub-transaction period start date	Sub-transaction period end date	Existing NTS Entry Capacity at Bacton ASEP (kWh/d)
1 Nov 2015	30 Nov 2015	
1 Dec 2015	31 Dec 2015	
1 Jan 2016	31 Jan 2016	
1 Apr 2031	30 Jun 2031	
1 Jul 2031	30 Sep 2031	

Please could you indicate at which ASEP (Bacton UKCS or Bacton IP) you wish these existing Registered NTS Entry Capacity rights and NTS Capacity Transfers¹ to be held in future for the relevant periods indicated using the attached proforma included within Appendix 1.

Please note

- the total quantity of NTS Entry Capacity requested at the two new ASEPs (Bacton UKCS and Bacton IP) should be equal to the existing amount held at the Bacton ASEP for each relevant period.
- the total quantity of NTS Entry Capacity Transfers that you request at the two new ASEPs (Bacton UKCS and Bacton IP) should not be greater than the lesser of either your existing quantity of NTS Entry Capacity Transfers or your registered NTS Entry Capacity for each relevant period
- the Transferor User is to provide the Transferee and quantity by relevant ASEP by period (Month or Quarter)

Users can submit their completed proforma between 08.00hrs and 17.00hrs on each of the following 10 Business Days (xx xx xx xx xx xx xx xx xx xx) via the following facsimile number:

Direct fax: +44 (0)1926 654059

Please note the completed proforma should be returned to National Grid no later than 17.00 [xx]

No later than 5 Business Days following the close out date [25th August 2015] for responses, National Grid will undertake the Final Capacity Reallocation process which consists of the following steps:

- National Grid will calculate the aggregate level of NTS Entry Capacity rights requested by Users for each relevant Month/Quarter at the Bacton UKCS ASEP and the Bacton IP ASEP
- Provided that the aggregate level of NTS Entry Capacity rights requested is below the relevant Obligated level at each of the Bacton UKCS ASEP and the Bacton IP ASEP for the particular Month/Quarter, National Grid NTS will allocate that NTS Entry Capacity and NTS Capacity Transfers in accordance with the User's individual requests
- If in any Month/Quarter and at either ASEP, the aggregate level of NTS Entry Capacity rights requested is above the relevant Obligated level of NTS Entry Capacity, National Grid NTS will allocate the relevant NTS Entry Capacity for that Month/ASEP or Quarter/ASEP combination pro

- rata the aggregate amount applied for by all Users. The Users' remaining NTS Entry Capacity after the proration has taken place will be allocated to the other new Bacton ASEP (Bacton UKCS or Bacton IP as relevant). If there is insufficient Registered Capacity reallocated to the prorated new Bacton ASEP to fully meet a NTS Capacity Transfer requested then the Transfer request will be prorated in the same proportions as the User's split of their primary holdings.
- d. National Grid will write to relevant Users to inform the results of the Final Capacity Reallocation and show the User's individual reallocations of NTS Entry Capacity for each of the two new ASEPs in the format:
 - i. Relevant Months or Quarters
 - ii. ASEP
 - iii. Quantity in kWh/day
 - e. National Grid will write to all Users to inform the aggregate results of the completed process

Please note if you do not respond or provide a non-compliant response² by the required date National Grid will endeavour to contact you, however if a compliant response is not received by 17.00pm on xxxx a default will be applied i.e. National Grid will assume that the User wants to reallocate its capacity in the same proportion as given by the Obligated levels at the two ASEPs and the Transfer quantity in the same proportion as the User's split of their primary holdings.

No later than 5 Business Days following the application of the Final Capacity Reallocation process outlined above (and taking account the results of the Initial Capacity Reallocation process), National Grid will undertake the reallocation of your Registered NTS Entry Capacity and NTS Capacity Transfers¹ at the Bacton ASEP on your behalf for all the months from 1 November 2015 until 30 September 2016 and for the quarters from 1 October 2016 until 30 September 2031. **This will not require any User to undertake any actions on National Grid's systems or for National Grid to issue any general invitation to Users.**

The whole process will be completed by [30th September 2015].

For avoidance of doubt, expressions used within this Invitation Letter should be interpreted as having the same meaning as per the UNC Document.

If you have any queries regarding this application process please contact a member of the capacity auctions team or myself on +44 (0)1926 65 4057. Alternatively you can e-mail the capacity team regarding any capacity issues at capacityauctions@nationalgrid.com

Yours Sincerely,

[B Charles]
Market Operation, National Grid

² A User cannot request reallocation of a quantity less than or greater than their Registered NTS Entry Capacity for the month/Quarter in question or their Registered NTS Entry Capacity at the Bacton ASEP. A Transferor User cannot request reallocation of a quantity of NTS Entry Capacity Transfers greater than the lesser of, either their existing quantity of NTS Entry Capacity Transfers for the Month/Quarter in question or their Registered NTS Entry Capacity at the Bacton ASEP.

[Dependant on process start date]

Dear [User A]

Results of the Final Capacity Reallocation of existing Registered NTS Entry Capacity at Bacton from 1 November 2015 onwards (following Final Reallocation Process)

Please find the results of the Final Capacity Reallocation which show the User's individual reallocations of NTS Entry Capacity for each of the two new ASEPs in the format:

- i. Relevant Months or Quarters
- ii. ASEP
- iii. Quantity in kWh/day allocated

This does not require any User to undertake any actions on National Grid's systems

For all Month/Quarter where the aggregated requests in the Final Capacity Reallocation process are below the Obligated level of either the Bacton UKCS ASEP or the Bacton IP ASEP, the existing Registered NTS Entry Capacity and NTS Capacity Transfers for these Months/Quarters have been reallocated to the new ASEPS as per User requests.

For all Months/Quarters where the aggregate level of NTS Entry Capacity rights requested are above the relevant Obligated level of NTS Entry Capacity at either the Bacton UKCS ASEP or the Bacton IP ASEP National Grid NTS has allocated the relevant NTS Entry Capacity for that Month/ASEP or Quarter/ASEP combination pro rata the aggregate amount requested by all Users, with any remaining capacity being reallocated at the other new ASEP. Where there is insufficient Registered Capacity reallocated to the prorated new Bacton ASEP to fully meet a NTS Capacity Transfer requested the Transfer request is prorated in the same proportions as the Users' split of their primary holdings.

[Dependant on start date of process]

Dear Colleague

Aggregate Results of the completed Bacton Capacity Reallocation Process

Please find the results of the Bacton Capacity Reallocation showing the aggregated reallocation of NTS Entry Capacity for each of the two new ASEPs in the format:

- i. Relevant Months or Quarters
- ii. ASEP
- iii. Quantity in kWh/day allocated

This does not require any User to undertake any actions on National Grid's systems

Please note

- for all Months/Quarters where the aggregated requests are below the Obligated level of either the Bacton UKCS ASEP or the Bacton IP ASEP, the existing Registered NTS Entry Capacity has been fully reallocated to the two new ASEPs as per User requests
- for all Months/Quarters where the aggregate level of NTS Entry Capacity rights requested are above the relevant Obligated level of NTS Entry Capacity at either the Bacton UKCS ASEP or the Bacton IP ASEP National Grid NTS has allocated the relevant NTS Entry Capacity for that Month/ASEP or Quarter/ASEP combination pro rata the aggregate amount applied for by all Users. The Users' remaining NTS Entry Capacity after the proration has taken place being allocated to the other new Bacton ASEP as relevant

The reallocation process is now completed.

For avoidance of doubt, expressions used within this letter should be interpreted as having the same meaning as per the UNC Document.

Please note that this message is being sent by e-mail via the Joint Office of Gas Transporters and web-fax (business hours operational list).

If you have any queries please contact a member of the capacity auctions team or myself on +44 (0)1926 65 4057. Alternatively you can e-mail the capacity team regarding any capacity issues at capacityauctions@nationalgrid.com

Yours Sincerely,

[B Charles]
Market Operation, National Grid
