Dear Colleague

## **Rolling Monthly Transfer & Trade System Entry Capacity**

### **Invitation to participate in auction for capacity period June 2009**

Pursuant to TPD Section B2.3.10 of the Uniform Network Code, National Grid Gas plc invites you to take part in the Rolling Monthly Transfer & Trade System Entry Capacity (RMTTSEC) auction for the capacity period June 2009.

National Grid will conduct the auction on:

**Tuesday 5<sup>th</sup> May 2009**

The auction window will commence at 08:00 and close at 17:00 on the same calendar day. An RMTTSEC bid may be withdrawn or amended until, but not after 17:00.

The auction on this date will be held to allocate capacity for the following Capacity period:

**June 2009**

The amount of capacity to be offered for each Aggregate System Entry Point (ASEP) will be 100% of the unsold NTS Obligated Firm Entry Capacity plus any Firm Entry Capacity surrendered in the Surrender (Trade Initiation) process. This total capacity is termed the Available Capacity. The ASEPs where Available Capacity is to be offered, together with the unsold NTS Obligated Firm Entry Capacity for those ASEPs, are shown in the attached Tables 2 and 3. The Initial Stage and Trade and Transfer stage of the auction are both pay as bid and the reserve prices that apply are specified in Table 4. Any unsatisfied bids after allocation of the Initial Stage (i.e. where bid quantity exceeds Available Capacity) will be analysed as part of the Transfer and Trade stage and allocations will be carried out subject to the relevant provisions of TPD Section B2.3 and the Entry Capacity Trade and Transfer Methodology Statement.

User allocations for the whole process (for the avoidance of doubt this includes the Initial Stage and the Transfer and Trade Stage) will be communicated no later than 3 business days prior to the last business day of May 2009.

Following RMTTSEC capacity allocation National Grid NTS will publish the aggregate information for each ASEP on the Capacity Auctions area of the National Grid Gas website under the **RMSEC link**. This can be accessed using the following link:
