05 October 2007

Dear Julian,

Modification Proposal: 0173: Obligations to process data received from iGTs in line with requirements within Annex A of the CSEP NExA

Thank you for providing SGN with the opportunity to comment on the above Modification Proposal.

SGN supports implementation of Modification Proposal 0173.

Implementation of Mod proposal 0083, its development of the proposal and associated Business Rules did not fully reflect its intent in the legal text which has been highlighted by Transporters and xoserve. SGN believes it is imperative that the behaviour required of any Party by the Code is clearly understood and carried out in full.

SGN believes aligning the legal text as intended by this proposal, would promote efficiency in the administration and implementation of the UNC, and would reduce uncertainty amongst the relevant shippers and Transporters.

We hope you find these comments helpful.

Yours sincerely
