

# 0609: Transitional arrangements for gas settlement and replacement of Meter Readings (Project Nexus transitional modification)

National Grid Gas Distribution

# Why change?

- The prevailing UNC transitional terms for Project Nexus were identified within Modification 0528V and are based on a Project Nexus Implementation Date (PNID) of 1 Oct 2016
- As PNID is now directed for implementation on 1 June 17, amended transitional terms are required
- Transitional terms will also clarify treatment of AQ and AUGE processes and include provision for replacement of meter readings

- It is proposed that UNC transitional terms are included to:
  - Realign dates to reflect the new PNID
  - Clarify transitional rules regarding AUGE
  - Clarify transitional rules regarding treatment of AQ (given PNID is now mid year)
  - Reflect replacement of Meter Readings (originally included within 0529)
  - Incorporate CDSP as a consequence of FGO review

## Recommended Steps

- The Proposer recommends that this modification should be
  - Subject to self-governance
  - Proceed to Workgroup assessment to develop the modification for a period of two months
