

UNC Workgroup Individual Terms of Reference

0608S - Implementation of 'single service provision' arrangements for iGT connected system exit points (Project Nexus transitional modification)

Introduction

This is an Individual Terms of Reference that includes matters referred from Panel or identified within any initial representations. It replaces the standard Terms of Reference.

Purpose of the Modification and its Solution

Please refer to <http://www.gasgovernance.co.uk/0608>

The purpose of this modification is to identify transitional changes to the UNC to facilitate an orderly transition from the existing arrangements governing unmetered connected Independent Gas Transporter (iGT) systems (Connected Systems Exit Points - CSEPs) to the new 'single service provision' UNC framework to be implemented under UNC Modification 0440 'Project Nexus – iGT Single Service Provision'.

It is expected that the changes will be in the form of a series of low-level rules that set out how the new arrangements will work in practice.

Topics for Discussion

- Understanding the objective
- Consider and address any related issues/concerns with the Termination of the CSEP Network Exit Agreements
- Assessment of alternative means to achieve objective
- Development of Solution (including business rules if appropriate)
- Assessment of potential impacts of the modification
- Assessment of implementation costs
- Assessment of legal text.

Output

To produce a Workgroup Report, for submission to the UNC Modification Panel, containing the assessment and recommendation(s) of the Workgroup.

Composition of Workgroup

The Workgroup is open to any party that wishes to attend or participate.

A Workgroup meeting will be quorate provided at least two Transporter and two Shipper User representatives are present.

Meeting Arrangements

Meetings will be administered by the Joint Office of Gas Transporters and conducted in accordance with the Code Administration Code of Practice (<http://www.gasgovernance.co.uk/cacop>)
