

Representation – Modification UNC 0658 (Urgent)

CDSP to identify and develop improvements to LDZ settlement processes

Responses invited by: **5pm on 18 June 2018**

To: enquiries@gasgovernance.co.uk

Representative:	Mark Jones
Organisation:	SSE Supply
Date of Representation:	18 June 2018
Support or oppose implementation?	Support
Relevant Objective:	d) Positive or other Relevant Objectives) None

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

We fully support this modification as UIG has been a major issue for Shippers since the implementation of Project Nexus, with both the levels and volatility of UIG not showing any significant signs of improvement, despite a number of initiatives being taken in order to lessen its impact. Therefore, much deeper investigative work is required to get to the root of the reasons, in order to determine why UIG is remaining so high and unpredictable, so that proper remedial measures can be put in place by the Industry.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

This modification should be implemented as soon as possible.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

None identified as a direct result of the modification. However, any actions resulting from investigations into the causes of UIG may result in costs.

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

We have not reviewed the legal text.

Are there any errors or omissions in this Modification that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No.

Please provide below any additional analysis or information to support your representation
