<b>Representative:</b>	Lorna Lewin
<b>Organisation:</b>	Orsted
<b>Date of Representation:</b>	18 June 2018
<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	<b>d) Positive/Negative/None*</b> <i>delete as appropriate</i>  <b>or other Relevant Objectives)</b> Positive/Negative/None* <i>delete as appropriate</i>

#### Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

In Ofgem's recent impact assessment for modifications 0642/0642a/0643, Ofgem has stated their minded to position is to reject all three modifications. If light of this, there is an urgent requirement to identify and target the root causes of UIG volatility. We support the proposal for the CDSP to independently lead this work through a dedicated task force to provide recommend solutions to bring reductions and improvements to the current situation.

#### Implementation: *What lead-time do you wish to see prior to implementation and why?*

The proposed solution requires no changes to central systems; therefore, work can commence immediately.

#### Impacts and Costs: *What analysis, development and ongoing costs would you face?*

None

#### Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Not reviewed

**Are there any errors or omissions in this Modification that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

No

**Please provide below any additional analysis or information to support your representation**

N/A
