# NTS and LDZ Shared Sites

Update on Action 1106

Draft business rules to aid workgroup discussion for the following:

- NTS and LDZ Shared Sites
- Closed Sites
- Bi-directional Shared Sites

# NTS and LDZ Shared Sites

## Draft business rules for NTS and LDZ Shared Sites

- Intent to have a Supplemental Agreement in place
- NTS and LDZ connection facilities on a site
- No physical connection to flow gas
- No measurement equipment

Calculation of unmetered gas required if gas flows

- In exceptional circumstances (temporary connection) flow gas from NTS/LDZ e.g ILL run
- Subject to agreement by all Parties

# NTS and LDZ Shared Sites continued

- Subject to liabilities being appropriate
  - DN gas quality claims
  - Third party claims

# Closed Sites

Draft business rules for closed sites:

- Supplemental agreement in place
- NTS and LDZ connection facilities on a site
- Physical connection to flow gas but valve is closed
- On going maintenance required
- Measurement equipment may be on site
  - Calculation of unmetered gas required ?
- In exceptional circumstances flow gas from NTS/LDZ e.g ILI run

# Closed Sites continued

Draft business rules for closed sites continued:

- Subject to agreement by all Parties
- Subject to liabilities being appropriate
  - DN gas quality claims
  - Third party claims

# Bi-Directional NTS Offtake

Draft business rules for bi-directional NTS offtakes

- Is a NTS/LDZ Offtake
- Can flow gas from the NTS into an LDZ
- In exceptional circumstances flow gas from the LDZ to NTS e.g ILI runs
- Subject to agreement by all Parties
- Any unmetered gas is accounted for

# Bi-Directional NTS Offtake continued

## Bi-Directional NTS Offtake continued

- Subject to liabilities being appropriate.
  - Third Party Claims
  - NTS direct connections – NG customers
  - Offtake claims (DN)
  - GSMR compliance not being demonstrated on entry
