

Clause	Text	Recommend
B1.2.6	For each Offtake, the Offtake Site and (in relation to each part or the whole of such Offtake Site) the identity of the Site Owner, details of the Site Owner's Land and (where applicable) the Site User, are set out or described in Appendix A of the Supplemental Agreement.	No change required as Site Details is still Appendix A in new template.
B1.5.1	1.5.1 The Supplemental Agreement in relation to each Offtake shall contain (in Appendices A, B, C and D) details of the Offtake Site and Connection Facilities as provided in paragraphs 1.2.6 and 2.1.2 respectively (provided that such details may be specified or described generically or by reference to a diagram).	Generic reference "in the Appendices" or a similar phrase/wording.
B1.5.2	1.5.2 The Parties shall ensure that: <ul style="list-style-type: none"> a) where a new Offtake is established (or a new Individual Offtake Point is created at an existing Offtake), the Supplemental Agreement includes (or is amended to include) in Appendices A, B, D and E appropriate details (as applicable in accordance with this Section B and Sections D and E, and otherwise as required in the Appendices to the applicable form of Supplemental Agreement in the OAD Template Agreements Document) of the Offtake Site, Connection Facilities, Measurement Equipment and points of telemetry; b) where any Connection Facilities are altered, replaced or relocated pursuant to paragraphs 2.2 or 3.3 below, appropriate amendments to Appendices B and D of the Supplemental Agreement are made in respect of such alteration, replacement or relocation; and c) where any Offtake (or Individual Offtake Point) is decommissioned, the Supplemental Agreement is brought to an end or amended by an appropriate amendment relating to such decommissioning. 	Generic reference "in the Appendices" or a similar phrase/wording.
B2.1.1	The Connection Facilities installed or to be installed by each Party at an Offtake are specified in Appendices B and D of the Supplemental Agreement	Generic reference "in the Appendices" or a similar phrase/wording.
B2.6.3	2.6.3 The Services Party shall provide and continue to provide (as reasonably required by each other Party) such services ("Site Services") for the operation and maintenance of the other Party's (or Parties') Connection Facilities as are provided in Appendix C of the Supplemental Agreement.	No change required as Site Services is still Appendix C in new template.
D1.2.2	The Measurement Equipment and (for each item thereof) the Permitted Range at each Offtake are specified in Appendix D to the Supplemental Agreement relating to that Offtake.	No change required as Metering is still Appendix D in new template.
Annex D2	For any other measurement system, such standards/guidelines as may be set out in Appendix D to the relevant Supplemental Agreement	No change required as Metering is still Appendix D in new template.
E1.2.3	Any variations (from what is provided in Annex E-1) in the points of telemetry in relation to an Offtake are set out in Appendix E to the relevant Supplemental Agreement.	No change required as Telemetered Data Requirements is still Appendix E in new template.
F2.3.3	For the purposes of paragraph 2.3.2:	The relevant meter assets are stated in Appendix D.

	<p>a) the DNO has furnished to National Grid NTS at the date of this Document a statement of the Measurement Equipment installed at each such input point and output point, in the form and containing the details which would be required to be contained in Appendices B and D of the Supplemental Agreement relating to an NTS/LDZ Offtake; and</p> <p>b) such statement shall be deemed to be a Supplemental Agreement for the purposes of the application of Section D.</p>	<p><i>Note: meters other than the fiscal metering arrangement can be found at offtakes. It is seen as not necessary to document these in the Supplemental as they are found upstream and downstream of the demarcation line as ownership is respective thereof.</i></p>
