

FAO: Xoserve Directors and DSC Committee

Agreement between Maple TopCo Limited and SGN Smart Limited (“The Parties”) to the reallocation of Market Participant ID ‘SSL’ to Maple TopCo subject to Xoserve DSC Committee consent.

Further to recent discussions with Xoserve, the Parties write to confirm their agreement to, and request for, the Xoserve DSC Committee to agree, to the Gas Market Participant ID (MPID) ‘SSL’ being corrected to accurately reflect Maple TopCo as the owner and Meter Asset Provider (MAP) of assets assigned to this gas industry MPID.

Such change is required due to a change of control of Maple TopCo. As part of this, from around Summer 2022, Maple TopCo Limited will move away from its current contracting relationship with SGN Smart under its Managed Services Agreement (MSA). As such, Maple TopCo will need to maintain full visibility of its installed gas smart meter portfolio once full transition has taken place.

SGN Smart Limited will no longer require access to the data that it previously accessed via its permissions under the MSA and acknowledges that the data owner is Maple TopCo Limited.

Please take this as our formal collective request for approval of the reallocation of the MPID SSL.
