The D+10 target percentage has also increased by 3.5% compared to last month. We have targeted some Network's and IGT's regarding DTL / ISO site visits which have been outstanding for a long time, we reached out to see if any training or support is required to close the contacts within SLA. Despite the RFA team still receiving high volumes of RFA's the percentage of contacts completed within the D+4, 10 and 20 target has increased.
