

Report for Code Committee
June 2006
ENERGY BALANCING CREDIT SUB COMMITTEE

Meetings Held

Friday 25 May 2006, by teleconference,

Planned

The next meeting is scheduled for Friday 16 June 2006, at Elexon's offices.

Matters for Committee's Attention

As part of the review of this winter's terminations, the sub-committee has discussed ways of improving the quality and productiveness of emergency meetings. One area identified is that there is a steep learning curve for new members and it would be beneficial if prospective EBCC members were required to have a minimum of 3 years experience within the gas industry and/or Credit Management. The UNC Committee is requested to consider and approve this requirement.
