

Governance Workstream
Legal Text Review - Code Governance Review (CGR) Modification
Proposals

The following outlines the purpose of the 4th October CGR Legal text walkthrough and the basis on which it will be given:

1. The objective of the legal walkthrough is to provide clarity and a review of the suggested text. It is not a review of the contents/rationale of each modification proposal;
2. There will be a page turn to explain the suggested text in respect of each modification proposal 318 - 325 (and in relation to the transitional rule proposal);
3. Industry participants may offer comments or queries but it is not a negotiation of the substantive modification proposal or the suggested text;
4. National Grid will take away queries or suggestions and the formal text may contain further changes; and
5. There will also be brief explanation of the 'composite' document. This is not intended to be a walkthrough or detailed explanation."
