

CAM Modification 0598

UNC Mod Development Workgroup
2nd Dec 2016

Update on Modification 0598

- Mod 0598 - Amendments to Capacity Allocations Mechanisms to comply with EU Capacity Regulations
- It was agreed at 15th November Development WG that the wording regarding “emergency” will be removed from the Modification due to the changes made during the comitology meeting
 - The final CAM text no longer gives priority to firm capacity at IPs over storage into exit points in emergency situations
- As a result, the Modification will now only contain the auction / calendar date changes:
 - Annual Yearly Capacity Auction to move from March to July (from 2018)
 - Four Annual Quarterly Capacity Auctions to be held during each capacity year (1st Quarterly Auction August 2017).
