Transporter Proposal

In considering the legal text which is to be inserted into the Uniform Network Code as part of the implementation of modification 0224 “Facilitating the use of AMR in the Daily Metered Elective Regime”, at 06:00hrs on 21 November 2010, Scotia Gas Networks have identified potential issues with the legal text as it is proposed.

“Existing UNC TPD Section M3.8.4(b) MOD 224 Final Legal Text with marked changes.

M 3.8.4 The Transporter will not accept an Opening Meter Reading which:

(a) is not obtained in accordance with paragraph 3.8.2(a) but may (though shall not be required to) accept a Valid Meter Reading obtained in accordance with paragraph 3.8.2(a) as an Opening Meter Reading if provided to the Transporter not later than 16:00 hours on the 10th Business Day after the Supply Point Registration Date; or

(b) (in relation to User Daily Read Equipment) is not obtained by the Transporter from the User by 10am on the 5th Business Day after the Supply Point Registration Date;

(eb) is for a Non Daily Read Supply Meter Point that was ~~was~~ previously a ~~taken~~ ~~from a Meter with~~ Daily Read Supply Meter Point (with User Daily Read Equipment installed) if ~~but is now taken from an Non-Daily Read Meter if it is~~ not ~~provided~~ ~~obtained~~ ~~received by from the User~~ ~~Transporter~~ by 10am on the 5th Business Day the Exit Close Out Date. after the Supply Point Registration Date.”

Revised text is proposed simply to clarify the above position, thereby avoiding any misunderstanding that may otherwise arise.
