Reference: 2nd Draft AUGS

Date: 14th October 2011

Dear Colleague

Further to the publication of the 2nd Draft AUGS on 30th September the data used to derive the methodology was uploaded by Xoserve to UK-link earlier this week. The data can be found under item 22. "Mod229 AUGE Data Provision".

In addition, calculation spreadsheets including a set of guidance notes are also due to be uploaded by Xoserve by Tuesday October 18th so that the industry can see how the raw data has been used to obtain the interim Unidentified Gas figures.

Yours sincerely

Clive Whitehand
