

Mod 229 update January 2011

Mod 229 update

- xoserve is on schedule to appoint the AUGE with effect from 1st March 2011
- A date will be set for an industry meeting in mid-March.
 - AUGE introduction, provide contact information and cover industry engagement arrangements.
 - AUGE will present unidentified gas topics already known to it.
- To ensure the AUGE commences work effectively, xoserve would like to commence gathering industry input to the work now.
- The industry is requested to send topics they consider fall within the scope of unidentified gas to xoserve.

Mod 229 update

- The topic submission should include:
 - Clear title of topic
 - Full description of topic
 - Reasons why this topic is unidentified gas and within the AUGE scope
 - Any existing data on the volumes of unidentified gas, or potential scale
 - Possible data sources
- Submissions should be sent to:
Commercial.enquiries@xoserve.com
- and entitled “AUGE topic.....”
- The topics submitted shall be reviewed by the GTs and an assessment made as to whether to include this within the AUG scope. A response will be provided to the submitting party and a summary of topics published to the industry

Mod 229 update

- **AUGE Guidelines**

- Some refinements are to be proposed for review and approval at February's UNCC.
- Clarify responsibility for creation of the AUGS and provision of data
- Adding a review report at the end of the each year
- Refinement to query process – publication of query and response
- Feedback from the community is welcome, review comments by 2nd February would be appreciated to Andy.J.Miller@xoserve.com
- Aim to publish by 4th February for review and approval at 17th February UNCC
