Formula Year AQ

June 2017 Project Nexus
Implementation Date

Formula Year AQ

- From implementation of Project Nexus there will be two AQs and SOQs for Class 3 & 4 Supply Meter Points;
 - Rolling AQ for allocation processes
 - Fixed AQ and SOQ (Formula Year AQ) for transportation charges
- The Formula Year AQ and SOQ (FYAQ) will be the value set on 1st December each year and will be effective for transportation charges from 1st April the following year.
- For Project Nexus Implementation Date (PNID);
 - The AQ & SOQ used for transportation charges will be the value set 1 month before go live and will be used upto the 31st March 2018.
 - The FYAQ set for PNID will therefore be effective for transportation charges for 10 months (01/06/17 to 31/03/18)
 - A snapshot of the AQ & SOQ will be taken on the 1st December 2017 and applied for transportation charges effective from 1st April 2018.
