Notice of Indicative Transportation Charges effective October 1st 2007

Please find attached The Indicative Notice of Transportation Charges to apply from October 1st 2007 for Wales & West Utilities. Please can you distribute this note and the Indicative Notice to all Shippers to meet our UNC requirements.

The current estimate from Wales & West Utilities is an increase of between 18% and 28% from the existing charging levels depending on volume throughput. Volume volatility is the main impact on the final price notification.

If we experience gas throughput volumes consistent with 2006/7 the price rise will need to be at the higher end of the % range given so as to recover 2007/8 allowed revenue.

Regards,

Steven J Edwards
Head of Income and Pricing
Wales & West Utilities.
