

Industry update from Ofgem:

- **UNC 461: Changing the UNC Gas Day to Align with the Gas Day in EU Network Codes.** The decision letter approves the change of the gas day to align with the CAM gas day definition. It also approves other UNC changes required to fully implement the new gas day. A copy of the decision letter can be found at the following location on the Ofgem website: <https://www.ofgem.gov.uk/publications-and-updates/uniform-network-code-unc-unc461-changing-unc-gas-day-align-gas-day-eu-network-codes>.
- **Transmission networks: report on the performance of Transmission Owners during TPCR4 and TPCR4RO 2007-08 to 2012-13.** This report summarises the outputs, incentives, Regulatory Asset Value, revenue allowances and company expenditure during TPCR4 and the subsequent rollover year. It also outlines the performance of the system operator companies, which provide balancing services to the entire gas and electricity systems. A copy of the report can be found at the following location on the Ofgem website: <https://www.ofgem.gov.uk/publications-and-updates/transmission-networks-report-performance-transmission-owners-during-regulatory-periods-tpcr4-and-tpcr4ro-2007-08-2012-13>.
- **RIIO-T1 Regulatory Instructions and Guidance (RIG) modification notice – gas transmission.** This is a consultation on proposed modifications to the RIIO-T1 Regulatory Instructions and Guidance for gas transmission licensees. The RIGs are the primary means the Authority directs the Licensees to collect and provide information. The consultation closes on 08 April 2014. A copy of the consultation can be found at the following location on the Ofgem website: <https://www.ofgem.gov.uk/publications-and-updates/riio-t1-regulatory-instructions-and-guidance-modification-notice-gas-transmission>
