The Workgroup Report is due to the UNC Modification Panel on 17 October 2013.

1.0 Outline of Modification and initial discussion

CW explained that this is a very simple modification to enable MAPs to use IX kit to directly access Xoserve systems – it is an enabling modification.

2.0 Initial Discussion

AJ asked if the majority of MAMs use DTN – DA confirmed some do, but did not know the proportion. It was confirmed that the IX facility had been requested.

No concerns regarding the modification were raised and it was agreed that the legal text would be reviewed at the next meeting and a Workgroup Report completed.

3.0 Consider Terms of Reference

No issues were raised.

4.0 Any Other Business

None raised.
