The Workgroup Report is due to be presented at the UNC Modification Panel by 19 January 2017.

**1.0 Outline of Modification**

In introducing the modification and supporting presentation, MH explained that following recent final CAM text changes, the legal text supporting the modification has in essence returned to the 'original' UNC 0500 'EU Capacity Regulations – Capacity Allocation Mechanisms with Congestion Management Procedures' position. The original CAM legal text supports the current GB regime, where NGG currently offers interruptible capacity on a day ahead basis, based on the UNC UIOLI calculation.

The question as to whether or not 0599 is still needed was then asked and those parties in attendance indicated their (unanimous) support for withdrawal of the modification.

**2.0 Initial Discussion****2.1. Initial Representations**

None received.

**2.2. Issues and Questions from Panel**

None raised.

**3.0 Next Steps**

MH confirmed that he would be looking to formally withdraw the modification after the meeting.<sup>1</sup>

#### **4.0 Any Other Business**

None.

#### **5.0 Diary Planning**

*Further details of planned meetings are available at: [www.gasgovernance.co.uk/Diary](http://www.gasgovernance.co.uk/Diary)*

In reflecting Workgroup discussions, there are no further Workgroup meetings planned at this time.
