UNC Modification 450B Reporting

David Addison

Modification 450B - Background

- Modification 450B allows Users to submit AQ Appeals on SSP Meter points
 - Industry total – 20,000 appeals per month
 - 450B sets out how these are allocated to Users
 - Process requires:
 - AQ Spec Calc
 - Appeal
 - Renomination
 - Confirmation
 - 20k limit will be applied at Appeal stage

Modification 450B - Reporting

- Modification 450B reporting
 - Modification proposes that the appeals are reporting on using the formats agreed for Modification 378
 - Existing 378 reports report upon successful and effective (i.e. confirmed appeals)
 - This principle is proposed to be adopted
- Modification 378 reports are currently produced annually. These will be produced 3 times in the year (effectively quarterly) – e.g. Confirmations effective in:
 - 1st January – 31st March
 - 1st April – 30th June
 - 1st July – 30th September (not needed)
 - 1st October – 31st December
