Support or oppose implementation?	0520 - Support 0520A - Support
Alternate preference:	<i>If either 0520 or 0520A were to be implemented, which would be your preference?</i> 0520
Relevant Objective(s):	0520 a) None d) Positive 0520A a) None d) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

Both modifications support and facilitate performance assurance. The key difference is to whom the information is made available. 0520 envisages information being made generally available and 0520A has a much more limited distribution. Our initial preference would be for 0520 but as most of this information relates to Shipper performance we will take note of Shipper views when considering which to support at modification panel.

Self-Governance Statement: *Please provide your views on the self-governance statement.*

We agree that self-governance does not apply.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

The modification could be implemented following an Ofgem direction but noting that some reports may not be immediately available.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

None

Legal Text: *Are you satisfied that the legal text and the proposed Agency Charging Statements (ACS) (see www.gasgovernance.co.uk/proposedACS) will deliver the intent of the Solutions?*

Yes.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

Please provide below any additional analysis or information to support your representation
