Dear John

Modification Proposals 0266: Amendment to Gas Quality NTS Entry Specifications for the North Morecombe Terminal

Thank you for the opportunity to comment on the above modification proposal. Statoil (UK) Ltd (STUK) is in support of this proposal and would like to make the following comments.

Aligning the gas quality NTS specifications for the North Morecombe terminal with those contained within the Gas Safety (Management) Regulations will facilitate the delivery of more gas supplies to the UK. This will in turn enhance security of supply and competition between shippers and suppliers.

STUK trust that our comments will be given due consideration and should you wish to discuss any aspect of this response further please contact me on the above number.

Yours sincerely

Shelley Rouse.
