Impact of RIBP on NTS/LDZ Reconciliations

- ◆ **The graphs attached refer purely to NTS/LDZ reconciliations**
- ◆ **The graphs show (for various periods of RIBP)**
 - ◆ **the amount of energy that would have been reconciled if an RIBP had been in place since February 1998 (blue line)**
 - ◆ **The % of the energy that would have remained unreconciled and there socialised (purple bar)**
- ◆ **The graphs also highlight the impact that hard annual and monthly cutover regimes would have had.**

RIBP – Monthly cutover

RIBP – Annual Cutover
