Quarterly System Entry Capacity (QSEC) September 2008
Allocations

Dear Colleague,

The allocation of capacity further to the September 2008 QSEC auction has now taken place following the application of the tests described in National Grid plc's Incremental Entry Capacity Release (IECR) statement.

Please accept this as notice that the capacity allocation within Gemini has now been completed. Users can view their allocated bids via the Gemini screen **Home>Deal>Bid Capture Reports>Bid Information**.

The following information will also be published by National Grid plc within Gemini and can be found via **Home>Product>Publish Reports>MoS Results**. National Grid will also publish this aggregate information on the web site www.nationalgrid.com/uk/Gas/Data/CA/ not later than close of business Monday 17th November 2008.

For each Aggregated System Entry Point (ASEP) and each relevant period;

- Volume of Baseline, Obligated Incremental and Non-Obligated Incremental capacity allocated
- Revenue from sales of Baseline, Obligated Incremental and Non-Obligated Incremental capacity
- Amount of unallocated Baseline Capacity
- Clearing Price (this will be the same as the highest, lowest and weighted average prices)
- The number of Users who submitted successful capacity bids
- The number of Users who submitted unsuccessful capacity bids
- Where there is an allocation of QSEC in a period - number of Users who submitted bids at each price level

If you have any queries about the auction process then please contact me on 01926 6534071 or Kay Haycock on 01926 655342.

Yours sincerely

Chris Gumbley
Senior Capacity Analyst
