Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Modification UNC 482S seeks to improve transparency and improve accurate reporting of AQ Amendments under the Mod 81 Reports. This change will better define the AQ Trends Report – Total number of Accepted Amendments Received by LDZ (Count and Energy) and Accepted Shipper Amendments – increasing and decreasing AQ by Shipper. We believe this additional reporting is important to better understand the effective AQ amendments and the energy movements by LDZ.
