Support or oppose implementation?	Support
Relevant Objective:	d) Negative f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

As there is no other option –

- Nexus Transitional arrangements are required to support Nexus implementation; and
- Xoserve can't support the 2017 AQ Review, because they have not funded or staffed the process, plus the technical solution can't support the issuing of the AQ (T04) files, without significant detriment to the industry due to a 350TWh (~7£bn) misallocation risk.

We support this proposal.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

Implementation should follow as soon after the authority decision as possible.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*
