Support or oppose implementation?	Support
Relevant Objective:	f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

The importance of ensuring the UK Link Manual documentation is correct, should be more important than setting an arbitrary date by which the work is complete. Therefore we support arrangements which extend the UK Link development period and the related implementation date.

Self-Governance Statement: *Please provide your views on the self-governance statement.*

This change does not introduce new arrangements, but seeks to amend a date in Code. This does not have a likely material impact to competition or consumers, so self-governance is appropriate.

Implementation: *What lead-time do you wish to see prior to implementation and why?*

We can support implementation 16 days after Panel approval.

Impacts and Costs: *What analysis, development and ongoing costs would you face?*

None identified

Legal Text: *Are you satisfied that the legal text will deliver the intent of the Solution?*

Yes

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*

No

Please provide below any additional analysis or information to support your representation
