Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition.

A competitive supply and metering market relies on complete and accurate formation regarding the meter assets installed at customer premises. This modification will allow MAMs to facilitate the updating of missing information in the Supply Point Register and so improve the change of supplier process and facilitate metering competition.

Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

Self Governance Statement:

Do you agree with the Modification Panel's decision that this should be a self-governance modification?

We agree that this modification is self-governance.

Relevant Objectives:

How would implementation of this modification impact the relevant objectives?

Having more accurate information regarding the registered MAM in the supply point register will facilitate the change of supplier process and metering competition as well as reduce Shipper costs in maintaining customer records. We therefore agree with the proposer that this modification will facilitate relevant objective (d).

Impacts and Costs:

What analysis, development and ongoing costs would you face if this modification were implemented?

We do not believe that we will incur any significant costs in implementing this change and are instead likely to see a reduction in administrative costs.

Implementation:

What lead-time would you wish to see prior to this modification being implemented, and why?

We agree with the proposer that this modification can be implemented immediately upon receipt of direction.

Legal Text:

Are you satisfied that the legal text will deliver the intent of the modification?

Yes

Is there anything further you wish to be taken into account?

Please provide any additional comments, supporting analysis, or other information that that you believe should be taken into account or you wish to emphasise.

No
