#### Do you support or oppose implementation?

0450 – Support

0450A – Qualified Support

0045B - Support

#### If either 0450, 0450A or 0450B were to be implemented, which would be your preference?

Prefer 0450B

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

Corona Energy believe each MOD has individual merits and offer marginal improvements; however our preference is MOD 450B. Any improvement to the accuracy of a site's consumption is beneficial as there is better cost allocation and the ability to balance sites greatly enhances cost savings. Any cap on the number of appeals is unwelcome; however, having the ability to process a significant number of appeals (450B) is very welcome to the SSP sector.

#### Are there any new or additional issues that you believe should be recorded in the Modification Report?

None

For 450B yes.
