Dear Bob,

RE: UNC 0355 - Alignment of CV and Wobbe Limits at NTS System Entry Points

E.ON **supports** implementation of this proposal.

Implementation of the revised and widened gas quality parameters should enhance competition between shippers by potentially allowing more (albeit marginal amounts of) gas to be delivered to the market than currently is possible (SSC A11.1 (d) (i)).

If you wish to discuss this response in any more detail, please do not hesitate to contact me on T: 02476 181421.

Yours sincerely,

Richard Fairholme (by email)
