Support or oppose implementation?	Support
Relevant Objective:	f) Positive

Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)

This modification has clearly identified the correct measures needed to facilitate the FGO arrangements being implemented under Modification 0565A. IGTs have raised iGT086 to mirror changes in the iGT UNC.

Self-Governance Statement: Please provide your views on the self-governance statement.

ESPUG agree that this modification meets the self-governance criteria.

Implementation: What lead-time do you wish to see prior to implementation and why?

ESPUG agree that the date suggested (alignment with PNID) is correct.

Impacts and Costs: What analysis, development and ongoing costs would you face?

ESPUG believe there are no adverse impacts associated with this change, but it should be noted that the impact on the iGT UNC continues to be assessed through modification iGT086 (due for consultation with industry in April). Changes to the iGT-UNC will be needed, but not at an extra cost.

Legal Text: Are you satisfied that the legal text will deliver the intent of the Solution?

ESPUG believe that the legal text will deliver the intent of the solution.

Are there any errors or omissions in this Modification Report that you think should be taken into account? *Include details of any impacts/costs to your organisation that are directly related to this.*
