Final Modification Report

0418 and 0418A - Review of LDZ Customer Charges

Consultation close out date: 10 December 2013
Respond to: enquiries@gasgovernance.co.uk
Organisation: National Grid Gas Distribution
Representative: David Chalmers
Date of Representation: 04 December 2013

This consultation is being undertaken because additional information regarding DN costs has been published following the initial consultation, and is now contained in the Final Modification Report. Representations submitted for the previous consultation do not need to be resubmitted. However, Modification Panel Members have indicated that it would be particularly helpful if the following questions could be addressed in any further responses. You may wish to address this by using this template, but are also free to withdraw your previous response and submit an entirely new one if you wish to do so.

Q1: Has the provision of additional information changed your previous views made in representations? If so, please explain why.

No. The views of National Grid Gas Distribution are unchanged from our response of 26th July 2013. We continue to support the implementation of Modification 0418 and we remain opposed to the alternative Mod 0418A for the reasons previously given.

Q2: Are there any new or additional issues that you believe should be recorded in the Modification Report due to the provision of additional information?

No.
