UNC Modification Proposal 0610S – Project Nexus - Miscellaneous Requirements

Dear Bob,

Thank you for your invitation seeking representations with respect to the above Modification Proposals for which National Grid Gas Distribution (NGGD) would like to support.

Do you support or oppose implementation?

Support

Please summarise (in one paragraph) the key reason(s) for your support/opposition:

As proposer we raised Modification 0610S to ensure that all additional Project Nexus requirements identified and included within the relevant Business Requirements Definition documents (BRD's) (since the core Modifications - 0432, 0434, 0440, were directed for implementation) are incorporated within the UNC. In addition a number of additional housekeeping requirements identified as part of the Nexus review have also been incorporated into the modification. The BRDs underpinning this modification have had extensive industry scrutiny within the Project Nexus Workgroup and Distribution Workgroup and the additional terms have also received scrutiny within Distribution Workgroup. In addition our Lawyers have been available at the relevant workgroups to ensure full understanding of the modification and its associated Legal Text and to ensure that the modification is both robust and complete.

Relevant Objectives:

f) Promotion of efficiency in the implementation and administration of the Code.

NGGD concurs with the comments in the Draft Modification Report concerning the facilitation of these relevant objectives.

Impacts and Costs:

We agree with the statement in the Draft Modification Report concerning the funding of this Modification Proposal and we have no further comment in this respect.

Implementation:

We are in agreement with the implementation timescales identified within this Modification Proposal.

Legal Text:

We have provided the Legal Text for 0610S. We are satisfied that the text delivers the intent of the solution.

Views on errors or omissions in the Modification Report which should be taken into account:

We have not identified any such errors or omissions.

Additional analysis or information to support your representation:

We have nothing further to add.

We trust that this information will assist in the compilation of the Final Modification Report. Please contact me on 01926 655299 (andy.clasper@nationalgrid.com) should you require any further information.

Yours sincerely,

Andy Clasper
