<b>Representative:</b>	Phil Lucas
<b>Organisation:</b>	National Grid NTS
<b>Date of Representation:</b>	6 <sup>th</sup> April 2017
<b>Support or oppose implementation?</b>	Support
<b>Relevant Objective:</b>	f) Positive

**Reason for support/opposition: Please summarise (in one paragraph) the key reason(s)**

National Grid NTS agrees that implementation would enhance the clarity of the contractual arrangements described in the UNC and on this basis we believe it would better facilitate relevant objective f) Promotion of efficiency in the implementation and administration of the Code.

**Self-Governance Statement:** *Please provide your views on the self-governance statement.*

This Proposal merely seeks to address a number of non-material changes to ensure the UNC fully aligns to the industry agreed Business Requirements Documents for Project Nexus in addition to a number of legal text 'tidy ups' and incorrect cross references. Given the nature of the changes proposed which have no material impact on the commercial activities set out in the UNC, National Grid NTS agrees with the conclusion of the Modification Panel that this Proposal is suitable to be treated as a self-governance modification.

**Implementation:** *What lead-time do you wish to see prior to implementation and why?*

National Grid NTS does not require a specific lead time for implementation.

**Impacts and Costs:** *What analysis, development and ongoing costs would you face?*

No additional analysis, development or ongoing costs would be incurred by National Grid NTS.

**Legal Text:** *Are you satisfied that the legal text will deliver the intent of the Solution?*

Noting that the Workgroup extensively reviewed the legal text associated with this Modification Proposal, National Grid NTS is satisfied that the legal text delivers the intent of the solution.

**Are there any errors or omissions in this Modification Report that you think should be taken into account?** *Include details of any impacts/costs to your organisation that are directly related to this.*

We have not identified any errors or omissions that we believe should be taken into account.

**Please provide below any additional analysis or information to support your representation**
