#### Do you support or oppose implementation?

Support

#### Please summarise (in one paragraph) the key reason(s) for your support/opposition.

The modification would ensure that an offtake's physical needs will be better aligned with the volume of capacity assigned at the relevant exit point. In turn, this will ensure that exit capacity can be optimised across the system ensuring improved efficiency and, importantly deliver cost savings to the customer.

#### Are there any new or additional issues that you believe should be recorded in the Modification Report?

No

#### Relevant Objectives:

*How would implementation of this modification impact the relevant objectives?*

It would better facilitate the fulfilment of relevant objective d (securing effective competition). As stated in a previous section, ensuring customers can better align their physical needs with the commercial arrangements, particular to the purchase of NTS Exit capacity, will permit optimal allocation of capacity across the NTS and deliver cost savings to the customer. The combination of these outcomes will contribute towards the delivery of effective competition in the gas market.

#### Impacts and Costs:

*What analysis, development and ongoing costs would you face if this modification were implemented?*

None

#### Implementation:

*What lead-time would you wish to see prior to this modification being implemented, and why?*
